About Me

I am a graduate of a physics and mathematics class at one of the best school in Russia (top 10). Often participate in verious team and single STEM competitions. Diligent and responsible in things that truly interest me. Also fond of board games, crypto, role games (dnd and live). More information about achievements on my <u>GitHub page</u>

Experience

autumn 2022 - spring 2023

<u>NTO in AI</u>

I am a finalist of <u>National Technological Olympiade in Artificial Intelligence</u> Amazing team competition with hard ending task - video questioning and answering.

autumn 2021 - spring 2022

Artificial Intelligence Courses

I passed <u>Machine</u> and <u>Deep</u> Learning courses during 10th form. Saturated and complicated lessons that introduced me <u>base</u> and <u>in-depth</u> knowledge of artificial intelligence.

autumn 2020 - spring 2023

<u>Russian Olympiads in STEM disciplines</u>

Due to qualitative educational material, brilliant professors from my High School and my persistence I am a runner-up in several regional and national olympiads.
